THAT PROPOSED RECALL OF THE MISSIONARIES.

Now and then somebody is found proposing a recall of the Missionaries from interior places in Chiha back to the open ports. Rather should it be said they are found seconding a proposal-for the proposal itself originated with the Chinese anti-foreign Syndicate of Officials and Li-

Those engaged in secunding the motion labour under an impression that in this way an end will be put to all sorts of friction between Chinamen and Western men-and that such a recall will usher in an era of amity' which it is the aim of treaties to sccure. It is assumed that then, and thereupon, mandarins and gentry will welcome all the remainder of western kind with open arms, and fraternization will become the order of the day. The tacit implication is that it is missionaries that block the way to a perfect unification-to the obliteration of all facial antipathies, and to a removal of any pulty little jealousy attendent upon lively continercial competition. Only recall the missionaries, and thenceforward and for ever it will be all smooth sailing.

Does anybody believe that sort of thing? Does any one think that if the commandant of the Regiment to know that missionaries were recalled then, at once, Chinese Officials would become prompt in attending to business brought before them by our Consula ; -that diplomatic courtesies so scant at Pekin would immediately INFORMATION reaches us of a daring thaft become common and affluent letween the Taugli Yames and the Legitio: s; that Chang Chi-Tung will invite foreign capitalists to invest up his railroads; that It appears that the treasure room was Chang Chi-wang will vie with Sir Nicholas O'Conor in 'assurances of the most distinguished consideration; and possibly that with, and a box containing 500 sovereigns the dredging of the Woosung bur will be entered upon, with downright purpose to accomplish it? The whole subject will bear scruting no from a missionary, but a civilian point of the next smallest box containing 1400 or view generally. Do foreigners want to commit harikiri in a political sense China? If so then let thom fall in with the adroit scheme of the mandarins to secure the recall of the missionaries. That recall is the small knife that is to begin the work. The officials want the foreigners themselves to make the thrust into their THE following appointment has been made own bowels.... They stand by with the big sword to do the rest. Nothing could please the officials better. Viceroys of the Liu Ping-chang type, Taotais, Gentry and Literatigenerally of the Chou Han order, would hail it as a windfall from the enemy's aide of the hedge. What is that they have been labouring for assiduously for a quarter of a century. They want to head off the foreigner; they want to shut him out; he has got too much slready; they would like to wrench some of it out of his hands. The missionaries have been regarded at the very THE Manila Treasury forwarded to the vanguard of the foreign lust of powers and shead-he gets a lodgment when an ordinary civilian would fail.
